

13. Are there any other benefits, costs and/or issues associated with breeder registration that are not captured in this table? Please detail.

I am not knowledgeable enough to offer an opinion.

14. Should there be any restrictions on who can register as a dog breeder? If so, what should these be?

Yes, certainly. Prior to the successful registration of a potential dog breeder, they must have their background checked, the place where they propose to breed the dogs checked and they must be willing to be compliant with new dog laws, such as how many litters would be produced in a year, and how many litters any breeding bitch would be having.

15. Do you think local government is best placed to enforce dog breeder registration? Why, or why not?

I think local government is probably best placed to enforce dog breeder registration as this part of government is "in the area" as it were. They would be able to have rangers etc in the local area and be aware of what is happening in regard to backyard, unregistered breeders.
